

# Empower Women, STABILIZE Population

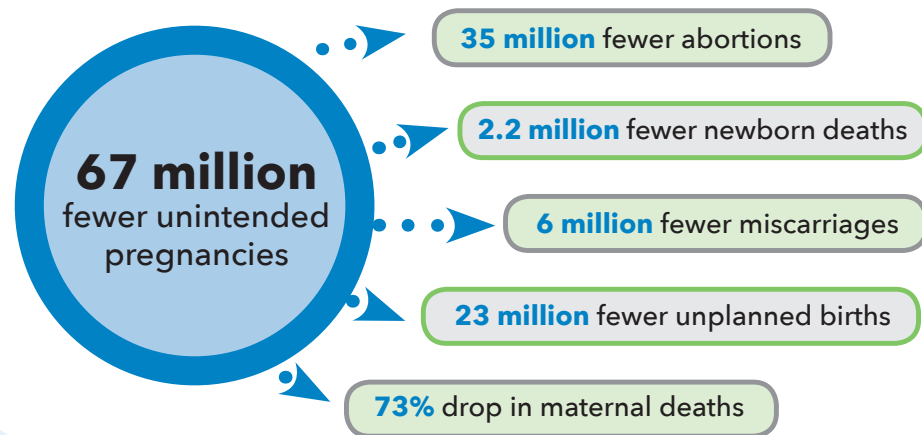

## 43% OF ALL global pregnancies are unplanned.

Addressing the unmet need for contraceptives is a humanitarian approach to stabilizing population and preventing maternal deaths.

Right now, **214 MILLION WOMEN** have an unmet need for contraceptives in the developing world.<sup>1</sup>

If all of these women used modern contraception, each year there would be:

## Save Women's Lives

Every **2 minutes** a woman dies from pregnancy related complications - a leading cause of death for teenage girls in developing countries.<sup>2</sup>

**99%** of maternal deaths occur in developing countries.<sup>3</sup>
